

Challenge Accepted

Birmingham Fastener is ready to satisfy your toughest requirements with custom manufacturing and in-house testing.

Meet the Unique Needs of Any Job

Need more than standard fasteners? We're ready to deliver to keep jobs moving forward.

Birmingham Fastener offers custom solutions for a range of products to maximize uptime, improve production and meet or exceed all industry requirements.

Our special fastener work includes:

Thread Lengths

Head Configurations

Chamfering

Custom Blends

Different Coating Options

Confident With In-House Testing

Quality begins with consistency and accountability. It's why our manufacturing facility is ISO 9001:2015 certified.

To go even further in ensuring quality, our in-house lab conducts timely, accurate testing on products including:

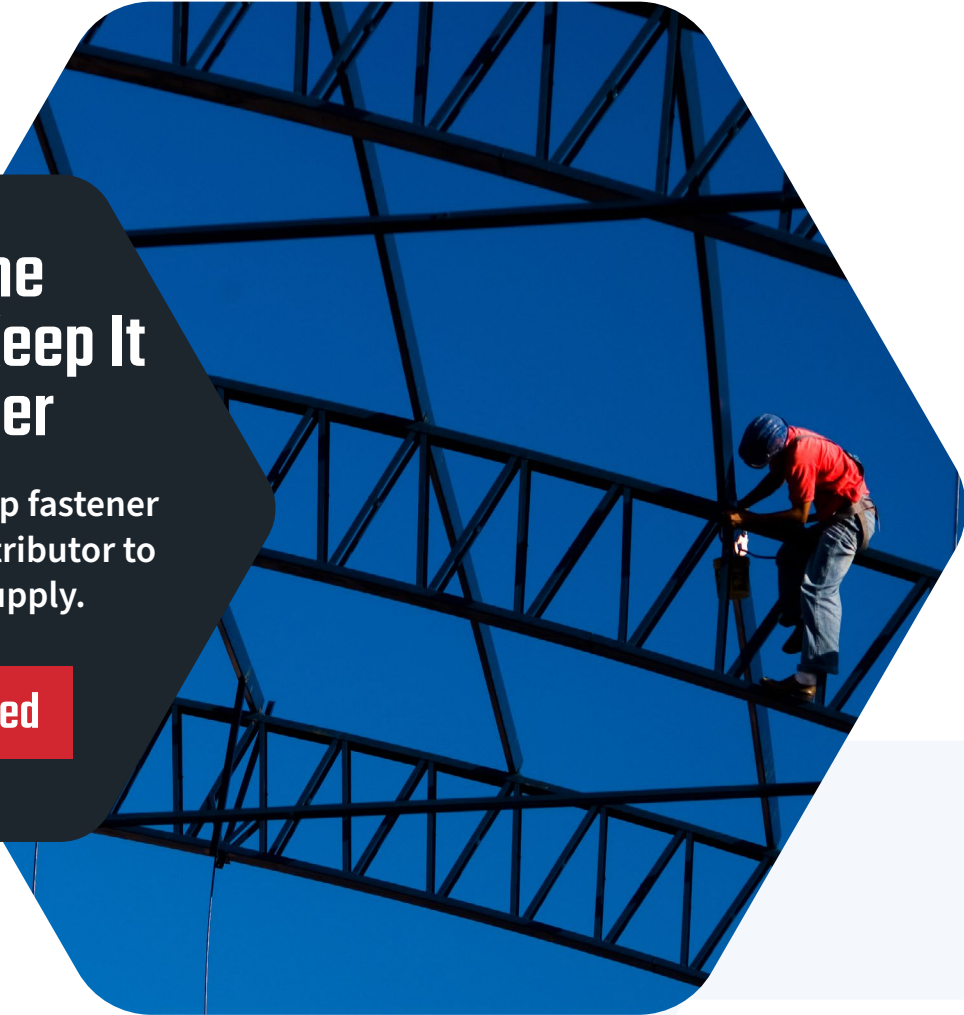

Rotational Capacity Tests

Tensile Strength Tests

Dimensional Analysis
